About Merlin

Merlin is an aerospace and defense technology company building the operating system of record for autonomous flight. Through a first-principles approach, the company is redefining what's possible across aviation, aerospace, and defense with the goal of delivering full-stack autonomy for any aircraft, military or civilian, from takeoff to touchdown. The Merlin Pilot system powers a growing range of aircraft and mission profiles, proven through hundreds of autonomous flights from test facilities across the globe. With \$100M+ total in IDIQ contract ceiling value under its C-130J autonomy program with USSOCOM, Merlin is advancing American leadership in autonomous aviation by helping to solve national security challenges through safe, reliable autonomy.
